Library Databases

Search for databases by subject or keyword.

Not sure of where to get started? Try one of our general knowledge databases!

- ABI/Inform Complete (Business Periodicals Database)
  - A comprehensive full-text source on business topics. ABI/INFORM features scholarly research from peer-reviewed journals (including over 3,000 full-text publications), trade and industry news, 25,000 Dissertations, 14,000 SSRN working papers, key newspapers such as The Wall Street Journal and The Financial Times, as well as country-and industry-focused reports and data. Specialized subsidiary databases include accounting and tax news, banking and financial services news and research, proprietary information about more than 40,000 public and non-public companies and 225,000 key executives from Hoover's, pharmaceutical and telecommunications industry news, international market and industry research reports, and analytical articles covering world and regional economic and political developments of major significance. [August 1971 - Present]

- Academic Search Complete
  - Large, interdisciplinary full-text database contains over 8,500 full-text publications, including academic journals, magazines, books, and trade publications. Offers broad subject coverage for a variety of disciplines, including anthropology, area studies, biology, chemistry, ethnic and multicultural studies, food science and technology, general science, geography, law, mathematics, music, pharmaceutical sciences, physics, psychology, religion and theology, women's studies, and many other fields. Partially funded by the the New Jersey State Library.
HOW TO DO IT
FIND THE RIGHT WIDGET
Customize & Preview Code
Widget Request Format

Your widget request can be processed via a web-script (PHP, ASP, AJAX, etc.) or embedded directly in the page using a frame, iframe, or via a JavaScript include. You can use the control below to toggle between the code for different approaches.

- Show me the URL for use in a web-script, iframe, or frame
- Show me the JavaScript embed code

Here is the URL / Embed Code for your widget:

```html
<script type="text/javascript" src="https://api3.local.com/api_events.php?id=3621&m=month&crid=5579&c=d&context=object(format=json)"> </script>
```
TWEAK THE CODE
Out of the box
Styling isn’t bad
