**Decision Prompted Student Regret**

**Frimer: In Retrospect**

Dr. Norman Frimer will leave his post as Dean of Stern College this June and plans to work with the National Fund for Bible Education while continuing his own private studies.

**Explanations**

Dean Frimer described his reasons for leaving: "The present (Dr. Frimer reasons for leaving) is not in the institution but in me." Dr. Frimer said that this Dean's role, especially during this period in Stern College growth, is exploding. Students want more courses, a greater variety in electives, increased quality as well as quantity. "The first thirteen years in Stern's life were a foundation time. The next thirteen years will be a dialectic between educational consolidation and experimentation. This process requires a continuing proportion of time. There is no time for one's own life. Study, reading, writing and teaching. . . . these are things for which I have a high priority. Consequently, I have made the decision."  

**Regret Expressed**

Dr. Frimer also expressed regret. "I feel sorry that I am not going to be part of this explosion." The Dean said that he hoped his contributions to Stern would be of use. "If things go as they are, a Stern College girl will be able to speak with the same amount of pride about her school as a Harvard or Sarah Lawrence girl could . . . The Stern girl is a live one. Stern College is the only institution of its kind in this country."  

**New Image**

The Dean also spoke with pride about the girls who were entering school. He feels that the new breed of Stern girl will combine intellectual, social and personal sophistication and religious and moral sophistication . . . why can't they be mixed up together? The role of Stern, the Dean feels, is to help fashion young people who will 'show the world with guts.'  

**Future Plans**

Dean Frimer expressed thanks to Dr. Rothkopf for the freedom that he was given to get to the faculty, administration and students for the cooperation he was shown. Dr. Frimer's future plans include working for the national staff of B'nai B'rith Foundation as liaison with Education agencies in the area of national importance.

**Paul Rekonvment**

Dr. Frimer received his ordination from the Hebrew Theological Seminary of Chicago, his B.A. from Illinois Institute of Technology, his Ph.D. from Yeshiva University, and is presently at work on a Ph.D. in Higher Education at New York University. Dr. Frimer's past positions include working for the national staff of B'nai B'rith Foundation as liaison with Education agencies in the area of national importance.

Dr. Frimer is married and has three children.

**Student Tribute**

We note with regret the resignation of Dr. Norman Frimer as Dean of Students. All who have had any contact with him during the past year have noted his great sincerity in coping with and ameliorating some of the abundant problems which beset this institution. His warm personal approach toward the students has indeed been appreciated.

We acknowledge his participation in student organized and sponsored events. In addition to this he has managed to hold his position in the forefront of academia with articles published in *Tradition* and other periodicals of similar stature. He kept in constant touch with campus thought by frequent lectures at various YAVNEH chapters. In this past year we have taken pride in him; we hope that in the future he will take pride in us.

We take this opportunity to wish him success in all his future endeavors.
New Post a Challenge

SC Pres. Message

By Zelida Bader

Dr. David Mirsky, Vice President and Dean of Stern College, has been in the news recently. Although he has been away from campus, his influence and impact are still felt. Mirsky's appointment as Dean has been a source of excitement and anticipation for the students. His leadership promises to bring new opportunities and challenges to the academic community.

Mirsky's appointment as Dean marks a significant milestone in the history of Stern College. Under his guidance, the college is expected to continue its mission of providing a high-quality education that prepares students for success in their future careers.

Stern College, as a part of Yeshiva University, has a long tradition of excellence in education. It is committed to fostering a community of scholars who are dedicated to learning and service. Mirsky's appointment as Dean aligns with this commitment, as he brings a wealth of experience and expertise to the position.

The appointment of Dr. David Mirsky as Dean is a testament to the excellence of Stern College. It is a reflection of the college's dedication to providing a high-quality education and preparing students for success in their future careers.
