Alumni Begin Season With Gala Smoker

Y.C. Sabbath, Charter Day Series of Lectures in Years’ Program

Announcement of an intensive program, including a Yeshiva College Sabbath and an elaborate series of lectures, climaxing in a gala smoker held on Monday night in Rite Hall. The affair inaugurating the new season of Alumni activities, featured an address by Dr. Bernard Revel, president of the College, as well as speeches by various members of the faculty and the alumni body.

The Yeshiva College Sabbath, as the culmination of a week-plus an extra program to raise funds for the College, Jacob Kaminski, ’32, announced. The series of lectures, which extends through the winter, will deal with Jewish topics and will feature prominent speakers. Jewish Sabbath and Charter Day celebration of unprecedented proportions climaxing the year’s activities.

Opening the Sabbath, Hyman Muz, ’32, president of the Alumni Association and master of ceremonies, introduced Dr. David Silver, assistant to the president of the College, who presented the alumni body’s annual report.

Among those were Prof. Bruno V. Kirsh, renowned German physiologist, and Prof. Jacob Rapoport, known as the department of physical education, Prof. Werner of the German department, Prof. David Klein of the English department, and the Memorial Department of Mathematics.

Gallopied To Biology Staff

Mordecai L. Gabriel, ’37, former editor of the Commentator, has been appointed to the faculty as an assistant in the department of biology, Dr. Bernard Revel, president of the faculty, announced. Mordecai was awarded his Master’s degree at Columbia in June, 1938, after receiving his B.A. at Yeshiva University in January of the same year. At the present time, he is taking courses at Columbia in preparation for his Doctorate, being also in charge of the biology laboratory there.

Having served on the initial staff of the Commentator in the capacity of news editor, Mr. Gabriel has managed that paper and has been the final editor in charge of the publication. During his term as editor-in-chief, the paper was awarded first class honors by the department of newspaper and technical science in the annual competition.

The guest, a member of the Class of 1938, followed Dr. Isaac, urged the alumni to dedicate themselves “personally and as a unit” to the work of the college, and to an alumni body. Yeshiva is a young institution, and the alumni body is one of the things which mark the difference between the younger and the older generation in college life, Mr. Isaac said.

Goldman Chosen Yeshiva’s Number One Glamour Boy;

Chananov, Goroderetz Runners Up In Who’s Who Poll

The selections of the Commentator-Readers for the All-Yeshiva Five have finally been completed. It was a hard fight, but the winners were announced last week.

The “personality kids” will have the gratification of seeing their sparkling uppers and lower shows in the Who’s Who in American Colleges and Universities, which is published annually by the University of Alabama.

The number one boy in this race turned out to be none other than the number one man of the school, Jacob E. Goldman, ’40, president of the Student Council. Leaping out the way, the smiling lad from Brooklyn won up an impressive majority. Goldman has always taken a leading part in school activities, his last office before the presidency being the sports editorship of the Commentator.

It pays to advertise seems to be a true adage so far as Yeshiva is concerned for the next two men are also connected with the Commentator, Hyman C. Goroderetz, ’41, editor-in-chief, and Philip Goroderetz, ’41, business manager, ranked in second and third, respectively.

Chananov holds the distinction of being the number two man of the Commentator in his Junior year, which may account for the fact that he is the only member of his class to show in this poll. The name of the number two man is not revealed.

The Debating Team under New Plan

Tryouts for new aspirants to the Debating Varsity were partially completed last Thursday evening, and the following hopes were chosen to be examined next Friday afternoon, Elzas, Blackowitz, ’40, and Samuel, ’41, after the lecture, Dr. Revel, president of the college, said that the first meeting of the year will be held on Monday evening, and that the usual annual physical examination will be followed by the usual annual physical examination, in the which alumni blanks have been distributed to all college students to be signed by parent or guardian.

First Alumni Local Formed in Boston

Marking the establishment of the first local alumni group, the Yeshiva College Club of Boston was organized recently. The nucleus for this association was formed at a gathering held at the home of Phillip Goroderetz, ’40, in celebration of his birthday.

The meeting featured an address by Rabbi David S. Savel, of Boston, and Rabbi Savel spoke out on the rabbinical profession, though he gives little material reward for idealists, offers instead a spiritual return in the form of service and achievement to a field starved for leadership.

Moses I. Peretz, ’38, president of the Commentator, was chairman for the evening. He pointed out that the excellent field for a Yiddish College group in Boston because

New Yeshiva Plan Increases Faculty

Owing to a large increase in the student body, a rearrangement of classes was effected early this week, a bulletin from the office of Dr. Bernard Revel, Rosh Hayeshiva, revealed. In addition, Rabbi Weil, n.sted Lithuanian Talmudic scholar, has been appointed to the faculty.

The class formerly conducted by Rabbi Elazar has been reorganized under the leadership of Rabbi Polakoff with Rabbi Oushaksky continuing to teach Chumash. Rabbi Irmakoff has been appointed instructor of the class vacated by Rabbi Polakoff, while the new member of the instructional staff will lend the remaining group.

Historian To Speak On U.S. Neutrality

Mr. Moses I. Polshek, noted historian and lecturer, will open the annual series of open forums sponsored by the International Relations Club with an address in Rite Hall, Wednesday evening, April 18th, at 8:30 P.M. The subject of the talk is “An American Peace Plan.”

In presenting a practical plan whereby the United States may remain neutral in the present conflict, Mr. Polshek will discuss the origins and consequences of the war. Immediately after the lecture, Dr. Aaron M. Margalith, professor of political science at Yeshiva and faculty advisor to the International Relations Club, will open the meeting to questions and discussion from the audience.

FACULTY MEMBER

Medical Services Is Revised; Split Into Two Departments

A complete reorganization of the Health Service has been effected, it was learned from Dr. David A. Bekier, Medical Director. Replacing the former system of so-called ‘honor’ rooms in the phases of school health service, there will be two separate division of care, one for the Alumni College Health Service and the ‘Dormitory Medical Department’ respectively.

The Yeshiva College Health Service will be restricted to college students, and will form an auxiliary part of the existing medical care, which authorizational blanks have been distributed to all college students to be signed by parent or guardian.

Students Given Choice

Students are given three alternative plans of medical care, one for the student body, one for the group, and the officials of the society.

(Continued on page 3)
Under the paternal devotion and guidance of Dr. David A. Swick, the health department which was hitherto pitifully insipidous has blossomed into an activity of tremendous importance.

By dint of strained effort and labor, Dr. Swick has succeeded in carrying his determination to cater to all the medical needs of the students one stride farther. He has totally dissociated the health service of the college from the medical care of dormitory residents. Irrespective of department affiliation, the students are required to be under an annual medical examination. For the first time in many years, the students have been assessed a nominal fee to provide for treatment in the event of sudden illness.

The general health examination and follow-up of this significant project is being conducted in a most thoroughgoing, instructional manner. A detailed and accurate record kept of each student, and advise the college students in their particular cases and health problems.

In the past, for the benefit of the health service, a special corps of physicians will be assigned to care for bedridden students. The Health Squad is scheduled for installation in the future.

One can hardly expect medical care gratis. In the past, the final turnover of medical students was not sufficient to cover his expenses or to cover his fees to and from Yeshiva. No secrecy lurks the fact that our medical student residents do not express the consuming demands of the students. Despite the signs of busying activity, there is hardly a duplication of duties. As found, a most fine body educational institutions, the total medical fees exacted provide even for the comprehensive service. Thus a possible excuse does not exist for our neglect and disinterest in the Health bureau. There is no reason for its occupying the prominent position in the college.

The nominal levy which the medical department has imposed upon all dormitory residents has made possible theoperation of this service. The benefits of which are widely enjoyed and appreciated. We cannot afford to assume a passive attitude toward this service of the present time. We must therefore respective of the clairion call of Dr. Swick without any further delay.

Welcome Back, Alumnus

The COMMENTATOR notes with pride the return of one of its native sons to his alma mater. We refer specifically to the return of the combatant, Mr. Gabriel, for they are considered common knowledge to the Yeshiva student. There is hardly a man in his care not to which does not recall the extreme gratification and delight that were struck in our hearts by the momentous proclamation of his appointment as assistant in Biology at Columbia.

Of major importance and significance to us is the return of the Yeshiva student, Gabriel, whose return we have not forgotten, but rather, have come as an inspiration to the whole student body. He has been a beacon to all who are near him, and has shown us the way.

Cooperation At Yeshiva

We are certain that the college student body will cooperate with the reponsible individuals or individual in whose hands the affair rests. There is not the shadow of suspicion or suspicion cast upon the action of the Yeshiva and the Women's Organization acted solely in the interests of the students. In this regard, the S.O.Y. is known to have preserved the dignity of the Yeshiva and since maintained the respect and admiration of all those connected with Yeshiva.

But the journey has not been made in vain, for there is no doubt that the former students and the latter have pioneered. We must continue the good and should be displayed in concrete action.

"Too Many Girls"

For the first time in many years, the musical review with a collegiate background has hit Broadway. On the theory that the more you want the more they will give you, the producers of "Too Many Girls," and is being housed at the Imperial. George Abbott, who has produced such hits as "Three Men On A Horse," "Room Service," "What A Life," and "The Girl From Paris," has succeeded in hitting the jackpot again.

The project of the mythical college where football is taught and classes are included in, is a most fine body educational institutions. But in most bona fide educational institutions, the total medical fees exacted provide even for the comprehensive service. Thus a possible excuse does not exist for our neglect and disinterest in the Health bureau.

There is no reason for its occupying the prominent position in the college.

October 35, 1939
NEWS FROM The Registrar

Mr. Jacob I. Hartstein announced that three special examinations will be held during the current semester. A psychological test for all freshmen and new students will be given on Friday, October 13, in room 414. The test will be run twice, at 11:00 a.m. and 1:00 p.m. for the convenience of the students. All applicants are required to come equipped with pencils and erasers.

The medical aptitude test, to be taken by students planning to enter medical school in September 1944, will be given on November 28, at 2:00 p.m. in room 101. The examination is intended to measure the ability of the student to grasp material similar to that taught in medical school. The fee for the examination is $1.00.

Re-examinations for all students who received the grade "E" during last semester will be given during the week of October 22. A special proctor's fee will be charged for the re-exams.

The Department of English and Speech has been equipped with an office of its own, it was announced. The department occupies room 415, formerly housing the High School Literature Department. This is in accordance with the policy of the administration to provide an office for each department.

Concert Tickets continued from page 3

Tickets to several concerts have been procured by the Concert Bureau, Hyman Keenigstein, '49, announced. Among these programs are scheduled: "Town Meeting of the Air," "Paul Whiteman and His Orchestra," "Professor Cote," "Philip Morris and Johnny" and "We, the People." Keenigstein further stated that contacts have been made with some local theatre and movie houses as well as with Town Hall and Carnegie Hall for rentals. The 15 cent admission fee for a $1.10 ticket at Carnegie Hall should serve as an incentive to further the students' interest in music, he declared.

A new bulletin board is scheduled to appear at the entrance to the Concert Bureau Office. Announcements meanwhile will be posted on the college bulletin board. Students are urged to follow the posters for instructions.

ALUMNI MEET continued from page 1

Alumni Meet

In the principal address of the occasion, Dr. Brill, encouraged the Alumni Association in increasing members with the importance of their task. "The Alumni Association is a vital factor in the affairs of the university and of American Jewry, particularly at the present time," he emphasized.

Jacob E. Goldman, '49, president of Student Council, then conveyed the greetings of the student body and expressed the hope that this affair would mark the intensification of the close relationship between alumni and students.

In the final speech of the evening, Prof. Alexander Lipton drew an analogy between the attitude of the alumni and that of various characters in the Bible.

Playroom Reopens

The Yeshiva College playroom will reopen on Thursday, November 25, Henry Margolis '41, chairman of the playroom, announced. A new radio, a Victrola, and a fine collection of classical recordings are some of the accessories added to the playroom's equipment. Margolis also stated that the annual ping-pong tournament will commence on the first Sunday in November.

All students wishing to join the playroom staff should hand in their applications to Henry Mar-

golles.

Tobacco...opens Doors to Fields where People Live, Work & Achieve

Today there are about 1,000,000 cigar stores, drug stores, country and grocery stores where you can buy cigarettes in the United States. These retailers, and the jobbers who serve them, have built up a service of courtesy and convenience unmatched by any other industry catering to the American public's pleasure.

THERE ARE ANOTHER MILLION people who are engaged directly or indirectly in the transportation of cigarettes to every town, hamlet and crossroad.

IT IS ESTIMATED that there are 1,602,000 tobacco farmers raising tobacco in 20 out of the 48 states. Good tobacco is one of the hardest crops to raise and bring to market, requiring great skill and patience from seed-bed planting to harvesting and curing. The modern tobacco farmer has done well the job of constantly improving the quality of his product.

THE AVERAGE LENGTH of service of the 13,230 people working in the Chesterfield factories, storage houses, leaf-handling and redrying plants is over 10 years. This means that every step in the making of Chesterfields, regardless of how small, is handled by people who have had 10 years of experience and ability in knowing their jobs.

TRULY TOBACCO OPENS DOORS to fields where people live, work and achieve, and Chesterfield takes pride in its ever increasing part in this great industry that is devoted entirely to the pleasure of the American public.

TO SMOKERS, Chesterfield Cigarettes have always said, and now repeat, that in no other cigarette made can you find the same degree of real mildness and good taste, or the same high quality of properly cured and aged tobaccos. Chesterfield Cigarettes are made with one purpose only...to give smokers everywhere the MINDER, BETTER-TASTING SMOKING PLEASURE they want. You can't buy a better cigarette.
